

## REMARKS

### *A. Status of the Application*

Claims 1-2 are pending. Claims 1-2 are allowed.

### *B. Objection to the Drawings*

The Examiner has noted that the drawings are objected to under 37 C.F.R. 1.83(a) for failing to provide a sufficient showing of the fabric layer 58 as described in the specification.

In response, the drawings have been amended and replacement drawings adding reference 58 in FIGs. 2 and 3 are submitted herewith. Applicants respectfully assert that, contrary to that indicated by the Examiner in the March 7, 2005, Office Action, reference 58 appeared previously in FIG. 4 only, not in FIG. 3.

Replacement drawings are attached to this Response under Tab A.

Withdrawal of the objection to the Drawings is respectfully requested.

### *C. Claim Objections*

The Examiner has noted a minor informality in original claim 1, and has kindly suggested a correction to more appropriately define the location of the fabric. In response, claim 1, line 10, has been amended to delete the word "in" and insert the word --into -- therefor.

In light of this amendment, Applicants respectfully assert that claims 1-2 remain in condition for allowance.

### *D. Allowable Subject Matter*

The Examiner has kindly noted that original claims 1-2 are allowable over the prior art of record.

### CONCLUSION

Applicants believe that these remarks fully respond to all outstanding matters for this application. Applicants respectfully request the objections to the drawings be withdrawn and the issuance of a timely Notice of Allowance for these claims.

Should the Examiner believe that a personal discussion would be helpful, he is encouraged to contact the undersigned attorney at 512/536-3005 with any questions, comments or suggestions relating to the referenced patent application.

Respectfully submitted,
